What's New In Subnet ScanPro?

ScanPro is the most powerful, user-friendly, small-footprint PC inventory scanner on the market. It is safe, easy to use, and will be a big asset to your organization! With ScanPro, you are in complete control of your computer inventory. You can enter all of your details, or choose to enter only the information that you need. You can create groups of computers based on their attributes, or share this information with other users. If you share your inventory with other users, ScanPro allows you to export the inventory data in multiple formats, including tab-delimited, HTML, comma-delimited, and XML. Features: - Group individual computers into homogenous sets, based on their attributes. - Scan unlimited computers for the latest attributes and problems. - Export the inventory data in a range of CSV, tab-delimited, HTML, comma-delimited, and XML formats. - Receive immediate email notification of newly scanned computers. - Scan network shares to collect data from remote locations. - Scan network shares with multiple computers at once. - Automatically scan computers in the background. - Scan mobile computers with USB port. - Optional USB drive functionality to export inventory data on a USB thumb drive. - Remove duplicates in inventory data. - Search, filter, sort and group computers. - Mark computers as deleted or temporary. - Notify you when a computer in your inventory is damaged. - Auto-deletes unregistered computers and computers never used. - Create dynamic reports. - All data is kept in a safe, encrypted database. Privacy: ScanPro records the computer attributes of all computers that are scanned. An individual will only see the data that they have entered. The data is encrypted and stored on the local computer. It cannot be copied or transferred. It has never been easier to scan a network and generate a computer inventory on all of the PC's in your network. Other PC inventory software can cost you thousands. Description: ScanPro is the most powerful, user-friendly, small-footprint PC inventory scanner on the market. It is safe, easy to use, and will be a big asset to your organization!
