We believe that our users should be able to filter news based on their political ideology, and the experience we've had over the years has convinced us that this is what users want. Never Agree readers have over 2 million unique visits a month to Never Agree's site and millions of pageviews on any given day. The fact that we have the best and most valuable readership out of every publisher in the world is a testament to the quality of our work and the fact that we appeal to our readers — not to ourselves. We are not about to destroy this platform just because we want more money. In response to the concerns raised by the Federal Election Commission this week about the foreign origins of our advertising, we will be taking steps to solve this problem. We will introduce new ways for readers to be able to understand where the money for their political advertising is coming from. We also plan to raise more money this year to make the site more attractive and make it better for our readers. In the meantime, we will continue to give our readers what they want: the best politics, analysis and commentary out there. We appreciate your support and we are proud of the work we do.
